

Summary

©2014 Stop, Look, Listen Ministries

Thank you again for listening to these “Wait A Minute” Bible lessons.

Did you notice how Jesus was using the Beatitudes to bring you closer and closer to Himself?

[water]

First, we learned that we have to see how empty we are without Christ. We have to allow him to get rid of everything that should not be in our lives.

Next, we saw that must be very ashamed of our rebellion against God –and turn from our own way.

[airplane]

We learned that God wants us to NOT be like a wild horse which has to be whipped until it will obey. We must surrender every part of our lives and give up our right to be in control.

[horse]

Did you see how we need to read the Bible like a love letter if we are really hungry for God?

[paper crinkle]

What about forgiving those who have hurt you?

[explosions]

Are you going to teach them a lesson? Are you going to learn the lessons of Jesus or just listen to them?

Do you have a single heart? Is Jesus just one of your options, or is He your only hope?

Do you have a clear conscience? Is there anyone who can say that you hurt them and never tried to make it right?

Do you ask God to use you as a peacemaker to share the Gospel with others?

[street sounds]

Do you know what to do when the devil attacks your mind with accusing thoughts?

Some people say that they are Christians but they do not even know what Jesus taught. Many people are not too worried about following Jesus because they think that believing in Him is good enough.

Jesus said “Unless you deny yourself and take up your cross and follow Me –you cannot be My disciple.”

How is it with you? Please understand that only someone who truly loves you would ask such a question.

We are not asking these things to make you feel bad. We are asking because we want what is best for you.

Watch what happens when you make a decision to read the Bible for yourself and see what it says. God is going to begin speaking to you and showing you what to do in hard situations.

We are now in the very last days of the earth. Now we need to know what to do more than ever. May God bless you as you Wait A Minute every day with Jesus.
